Subject index

A

Abutment(s) impressions, multiple, using vacuum adapted temporary splints (LaForgia), 44
pontic, removable partial dentures with (Ainamo), 289
Accuracy of correcting defective rubber-base impression (Shevlin, Schmidt, Harrison, and Potts), 648
Acrylic resin, impregnation of stone dies with (Mason), 96
repaired, effect of joint surface contours on transverse strength of (Harrison and Stansbury), 464
Alloy, new, for partial dentures (Asgar, Techow, and Jacobson), 36
Alveolar ridge mucosa in denture and non-denture wearers (Nedelman, Gamer, and Bernick), 265
Amalgam restorations, marginal fracture of (Matsuda and Fusayama), 658
with silicate cement facings for anterior teeth (Liatukas), 560
American Academy of Restorative Dentistry, Committee on Scientific Investigation of, report of (Phillips), 665
Angulation, cusp, factors that determine (Villa A.), 522
Anterior teeth, amalgam restorations with silicate cement facings for (Liatukas), 560
Apposition of palatal tissues to complete dentures, study of accuracy of (Young), 136
Are new dentures necessary? (Gordon), 512
Articulator, Hanau H 2, improved centric locking screw for (Fleisch), 205
Artificial crowns and fixed partial dentures, distribution of (Silness), 641

B

Bands, cadmium, in construction of full cast crowns (Stamoulis), 315
Base materials, different, clinical study of retention of maxillary complete dentures with (DeFurio and Gehl), 374
orientation, maintaining, when replacing tissue-conditioning materials (Wood), 662
Bearings, denture-support, technique for constructing (Powell and Morrow), 562
Blade-vent implants, endosseous: two-year report (Linkow), 441
Book review(s), 111, 241, 355, 577, 698
Broad or minimal base, mandibular complete denture with, patient preference for: preliminary report (Levin, Gamer, and Francis), 525

C

Cadmium bands in construction of full cast crowns (Stamoulis), 315
Cameo and profile: effective records of anterior esthetics and occlusion (Berg), 598
Carborundum stripping technique for occlusal adjustment of cuspless teeth (Gronas), 218
Castings, retention of, effect of surface roughness of prepared dentin on (Smith), 187
Cement(s) facings, silicate, amalgam restorations with, for anterior teeth (Liatukas), 560
setting, pH of, in vivo (Virmani, Norman, Swartz, and Phillips), 66

January, pp. 1-126; February, pp. 127-246; March, pp. 247-364; April, pp. 365-478; May, pp. 479-586; June, pp. 587-716.

Cement—Cont'd
silicate, physical properties of, effects of mechanical mixing on (Sorensen, Bingeman, and Eick), 73
Cleft palate treatment, maxillary orthopedics in (Kloeffler), 227
Clinical evaluation of resilient denture liner (Bell), 394
study of retention of maxillary complete dentures with different base materials (DeFurio and Gehl), 374
Color transparencies with fluorescent materials, increasing visual impact of (Morrow and Montalvo), 569
Commercial dental laboratories, maxillary removable partial denture designs by (Sykora and Calikkocaoglu), 633
Committee on Scientific Investigation of American Academy of Restorative Dentistry, report of (Phillips), 665
Complete denture(s), electroformed metal palates for (Rogers) 207
final impressions for (Collett), 250
mandibular, with broad or minimal base, patient preference for: preliminary report (Levin, Gamer, and Francis), 525
maxillary, with different base materials, retention of, clinical study of (DeFurio and Gehl), 374
mouth examination for: review (Beeson), 482
patients, initial interview with: its structure and strategy (Koper), 590
relining, with oral cure silicone elastomer and duplicate denture (Feldmann, Morrow, and Jameson), 387
study of accuracy of apposition of palatal tissues to (Young), 136
wearers, phonetic capability as function of vertical dimension in—preliminary report (Sherman), 621
mandibular dentures, initial retention of (Csögör and Michman), 503
Conditioner of hard and soft tissues and neuromuscular stimulator (Skinner), 612
Consensus, recent, on pulpal reaction to restorative materials (Gilmore), 434
Construction of denture teeth with gold occlusal surfaces (Koehne and Morrow), 449
splints, new trends in (Aramany), 88
Contours, joint surface, effect of, on transverse strength of repaired acrylic resin (Harrison and Stansbury), 464
Core and dowel foundations (Sheets), 58
Crown(s), artificial, and fixed partial dentures, distribution of (Silness), 641
full cast, cadmium bands in construction of (Stamoulis), 315
inlays, and fixed partial dentures, removable dies for (Rudd, Strunk, and Morrow), 337
technique, dowel, simplified (Whiteside), 554
Cusp angulation, factors that determine (Villa A.), 522
Cuspless teeth, occlusal adjustment of, carborundum stripping technique for (Gronas), 218

D

Defective rubber-base impression, accuracy of correcting (Shevlin, Schmidt, Harrison, and Potts), 648
Dental laboratories, commercial, maxillary removable partial denture designs by (Sykora and Calikkocaoglu), 633
plaque and pontic materials, roughness of (Clayton and Green), 407
restorations, stress analysis of, experimental: structural design and stress analysis of fixed partial dentures (El-Ebrashi, Craig, and Peyton), 177
Dentin, prepared, effect of surface roughness of, on retention of castings (Smith), 187
Denture(s), complete, electroformed metal palates for (Rogers), 207
final impressions for (Collett), 250
mandibular, initial retention of (Csögör and Michman), 503
mouth examination for: review (Beeson), 482
relining, with oral cure silicone elastomer and duplicate denture (Feldmann, Morrow, and Jameson), 387

Denture(s), complete—Cont'd
study of accuracy of apposition of palatal tissues to (Young), 136
designs maxillary removable partial, by commercial dental laboratories (Sykora and Calikkocaoglu), 633
duplicate, relining complete dentures with oral cure silicone elastomer and (Feldmann, Morrow, and Jameson), 387
duplicating (Zoeller and Beetar), 346
fixed partial, and artificial crowns, distribution of (Silness), 641
crowns, and inlays, removable dies for (Rudd, Strunk, and Morrow), 337
structural design and stress analysis of: experimental stress analysis of dental restorations (El-Ebrashi, Craig, and Peyton), 177
liner, resilient, clinical evaluation of (Bell), 394
mandibular complete, with broad or minimal base, patient preference for: preliminary report (Levin, Gamer, and Francis), 525
maxillary complete, with different base materials, retention of, clinical study of (DeFurio and Gehl), 374
new, are necessary? (Gordon), 512
and non-denture wearers, alveolar ridge mucosa in (Nedelman, Gamer, and Bernick), 265
partial, new alloy for (Asgar, Techow, and Jacobson), 36
patients, complete, initial interview with: its structure and strategy (Koper), 590
removable partial, swallowing and resting forces related to lingual flange thickness in (Lowe, Kydd, and Smith), 279
with pontic abutments (Ainamo), 289
support bearings, technique for constructing (Powell and Morrow), 562
technique, intermediate (Rayson and Wesley), 456
teeth, selection of, for esthetics and function (Brewer), 368
with gold occlusal surfaces, construction of (Koehne and Morrow), 449
Denture(s)—Cont'd
wearers, complete, phonetic capability as function of vertical dimension in—preliminary report (Sherman), 621
Designs, maxillary removable partial denture, by commercial dental laboratories (Sykora and Calikkocaoglu), 633
Dies, removable, for crowns, inlays, and fixed partial dentures (Rudd, Strunk, and Morrow), 337
stone, impregnation of, with acrylic resin (Mason), 96
Directory, 125, 245, 363, 477, 585, 701
Distribution of artificial crowns and fixed partial dentures (Silness), 641
Dowel and core foundations (Sheets), 58
crown technique, simplified (Whiteside), 554

E

Edentulous hypermobile ridges, sclerosing procedure for (Laskin), 274
patients, modified pressure impression technique for (Choudhary), 199
role of nutrition in conditioning (Ramsey), 130
subjects, evaluation of lateral tracings of (Langer and Michman), 381
Educational program for patients with temporomandibular joint dysfunction (ligaments) (Shore), 691
Effect of joint surface contours on transverse strength of repaired acrylic resin (Harrison and Stansbury), 464
Elastic impression materials, influence of tray design upon (Mitchell and Damele), 51
Elastomer, oral cure silicone, relining complete dentures with, and duplicated denture (Feldmann, Morrow, and Jameson), 387
Electroformed metal palates for complete dentures (Rogers), 207
Electrosurgery and gingival retraction, combined (Lampert), 164
Emotional factors, relation of, to prosthodontic service (Ramsey), 4
Endocrines, role of, in prosthodontics (Margolese), 607

Endosseous blade-vent implants: two-year report (Linkow), 441
Endosteal maxillary implant prostheses, prefabricated (Linkow), 327
Esthetic(s), anterior, and occlusion, effective records of: cameo and profile (Berg), 598
and function, selection of denture teeth for (Brewer), 368
tooth positioning, occlusal considerations in (Murrell), 499
Evaluation, clinical, of resilient denture liner (Bell), 394
of lateral tracings of edentulous subjects (Langer and Michman), 381
Examniation, mouth, for complete dentures: review (Beeson), 482
Exerciser, mouth, fabrication of (Shearer), 99
Extraction and replacement of teeth, influence of, on hearing (King, Reid, and Belting), 148

F

Facings, silicate cement, amalgam restorations with, for anterior teeth (Liatukas), 560
Factors that determine cusp angulation (Villa A.), 522
Federation of Prosthodontic Organizations (Wood), 572
Fixed partial dentures and artificial crowns, distribution of (Silness), 641
inlays, crowns, removable dies for (Rudd, Strunk, and Morrow), 337
structural design and stress analysis of: experimental stress analysis of dental restorations (El-Ebrashi, Craig, and Peyton), 177
prosthesis, vertical nonparallel pin-inlay (Weinberg), 420
prostheses, cemented, method of repairing and modifying: bolt inlay (Weiss), 296
prosthodontics, multiple preparations for (Guyer), 529
Flange thickness, lingual, in removable partial dentures, swallowing and resting forces related to (Lowe, Kydd, and Smith), 279
Fluorescent materials, color transparencies with, increasing visual impact of (Morrow and Montalvo), 569
Foundations, dowel and core (Sheets), 58
Fracture, marginal, of amalgam restorations (Matsuda and Fusayma), 658
Function and esthetics, selection of denture teeth for (Brewer), 368

G

Gagging—problem in prosthetic dentistry (Means and Flenniken), 614
Gingival retraction and electrosurgery, combined (Lampert), 164
Gold-grain implant to floor of mouth, prosthetic stent for (Nethery and Delclos), 81
occlusal surfaces, construction of denture teeth with (Koehne and Morrow), 449
Guidelines for advanced prosthodontic service—1969, 104

H

Hypermobile edentulous ridges, sclerosing procedure for (Laskin), 274

I

Impact, increasing visual, of color transparencies with fluorescent materials (Morrow and Montalvo), 569
Implant(s), endosseous blade-vent: two-year report (Linkow), 441
gold-grain, to floor of mouth, prosthetic stent for (Nethery and Delclos), 81
prostheses, prefabricated maxillary endosteal (Linkow), 327
Impression(s), defective rubber-base, accuracy of correcting (Shevlin, Schmidt, Harrison, and Potts), 648
final, for complete dentures (Collett), 250
materials, elastic, influence of tray design upon (Mitchell and Damele), 51
multiple abutment, using vacuum adapted temporary splints (LaForgia), 44
technique, modified pressure, for edentulous patients (Choudhary), 199
Increasing visual impact of color transparencies with fluorescent materials (Morrow and Montalvo), 569

Initial interview with complete-denture patients: its structure and strategy (Koper), 590
retention of complete mandibular dentures (Csögör and Michman), 503
Injected silicones, effect of, upon tissues of animals (Nedelman), 25
Inlay(s), bolt, new method of repairing and modifying cemented fixed prostheses (Weiss), 296
crowns, and fixed partial dentures, removable dies for (Rudd, Strunk, and Morrow), 337
Intermediate denture technique (Rayson and Wesley), 456
Interview, initial, with complete-denture patients: its structure and strategy (Koper), 590
Intraoral means, location of terminal hinge axis by (Long), 11
parallelometer (Schoeneck A.), 310
splints for surgical fractures of the mandible (Sabin and Saltzman), 320

J

Joint surface contours, effect of, on transverse strength of repaired acrylic resin (Harrison and Stansbury), 464

L

Lateral tracings of edentulous subjects, evaluation of (Langer and Michman), 381
Liner, resilient denture, clinical evaluation of (Bell), 394
Lingual flange thickness in removable partial dentures, swallowing and resting forces related to (Lowe, Kydd, and Smith), 279

M

Maintaining base orientation when replacing tissue-conditioning materials (Wood), 662
Mandible, surgical fractures of, intraoral splints for (Sabin and Saltzman), 320
Mandibular complete denture with broad or minimal base, patient preference for: preliminary report (Levin, Gamer, and Francis), 525
Mandibular—Cont'd
dentures, complete, initial retention of (Csögör and Michman), 503
Marginal fracture of amalgam restorations (Matsuda and Fusayama), 658
Maxillary complete dentures with different base materials, retention of, clinical study of (DeFurio, and Gehl), 374
endosteal implant prostheses, prefabricated (Linkow), 327
orthopedics in cleft palate treatment (Kloeffler), 227
removable partial denture designs by commercial dental laboratories (Sykora and Calikkocaoglu), 633
Mechanical mixing, effects of, on some physical properties of silicate cements (Sorensen, Bingeman, and Eick), 73
Minimal or broad base, mandibular complete denture with, patient preference for: preliminary report (Levin, Gamer, and Francis), 525
Mixing, mechanical, effects of, on some physical properties of silicate cements (Sorensen, Bingeman, and Eick), 73
Mouth examination for complete dentures: review (Beeson), 482
exerciser, fabrication of (Shearer), 99
Mucosa, alveolar ridge, in denture and nondenture wearers (Nedelman, Gamer, and Bernick), 265
Multiple abutment impressions using vacuum adapted temporary splints (LaForgia), 44
preparations for fixed prosthodontics (Guyer), 529

N
